

Bitdeal - An Overview

Enterprise Blockchain Solutions

www.bitdeal.net

Who We Are?

Bitdeal, a Leading Fintech Software Solutions Provider drops-ships solutions & services related to cryptocurrency, blockchain, DeFi and NFTs to transform many startups & enterprises across borders. We have already uplifted many firms to walk in the decentralized world along with success in each step.

What do We do?

Bitdeal is the experimenter of blockchain technology to create a decentralized ecosystem for businesses, enterprises, and startups. With our consecutive approach to develop industry-specific secured blockchain networks, we have become the trailblazers and have harnessed the power of blockchain technology for custom fintech software solutions as well as blockchain development. We Bitdeal bridges the gap between entrepreneurs and the fintech industry by providing complete end-to-end crypto based fintech & blockchain related solutions.

Problems We Focus

The problem of liquidity & transparency is being echoed loud in the crypto world. We Bitdeal focuses on diminishing the problems such as liquidity, scalability, security, transparency in any crypto business via the utilization of massive decentralized ledger, blockchain technology.

Solutions We Provide.

Our main motto is to uplift all the startups & enterprises that are facing challenges, through the application of blockchain technology. We provide services & solutions that eliminate the problems, reduce the risk, double the efficiency, and increase the revenue by decreasing the effort. We strive to create a completely transparent workflow nature in each & every business & industry.

Our Journey

Initially, "Bitcoin Exchange Script" was the main business module that defined Bitdeal, when it was launched in 2015.

1

Then We stepped into Blockchain development & developed ourselves for providing blockchain solutions such as private blockchain development, dapps, BasS & so on.

3

Now we have entered into NFT's Space & started offering NFT Solutions ranging from Non Fungible Token Development to NFT Marketplace Development for Arts, Sports, Gaming and more

5

We've expanded our services to offer A-Z Game Development Solutions! Our expert team handles everything from concept to launch, delivering top-notch games world wide.

8

Then, Bitdeal evolved as a cryptocurrency exchange development company offering solutions to launch centralized, decentralized, hybrid, p2p, derivative, DeFi exchange & so on

2

And then we extended our services which then included Decentralized Finance related solutions & services.

4

Now we started offering advanced AI solutions tailored to meet the evolving needs of businesses across various industries. Our skilled AI developers create intelligent apps that boost
